

Yao Bao Er 姚宝儿

Today, 30th of August, 2017, we have met Yao BaoEr, an orphan coming from Zhejiang province. She is a ten years old, confident and smart girl, fully aware of her situation. She explained to us that she feels good, she has no more pain in the chest but still feels a bit uncomfortable and mostly important- bored. So besides some fruits we gave her toys and a book to fill up her time. Life seems to smile on her, as she was accompanied by a person who has done all the procedures to adopt her. Hopefully we'll have the chance to meet her again and see her enjoying life as a healthy, completely recovered child.
